Dear Jerry:

I have not forgotten my commitment to produce the original of the TIME Magazine cover by Artaybasheff and as soon as the Club opens for business in the fall, I shall produce it. Also, I am working on the Diego Rivera version to which you refer. I have one of these in color and shall try to get another. So far the original has eluded me behind the Iron Curtain.

As soon as Foster lights long enough to listen to reason, I shall follow up the subject of your letter to him.

When I next see you I also have another proposition to make concerning a bust of Goering liberated from the Gestapo headquarters in Berlin in 1945 -- but maybe this would bring the Alibi into bad repute.

Sincerely,
